RESPECT FOR THE ENVIRONMENT

SIMPLE GESTURES TO HELP THE PLANET!

For more than a decade, the Tour de France has been implementing measure designed to reduce its environmental footprint.

Along with organisations such as the Assembly of the Departments of France (ADF), the Connexions and Gestes Propres - Vacances Propres, you can also be a major player in our campaign.

ON THE TOUR:

- O I sort out recyclable packaging (plastic, glass, paper, cardboard) and batteries;
- o If I'm a smoker I throw my butts in an appropriate place or keep them.

I AM A RIDER

- When I want to dispose of rubbish (bottles, packaging) during the race, I make use of the collection points at the beginning and the end of feed zones, as well as the collection point located 20 kilometres from the finish or at the foot of the last climb on mountain stages;
- Away from these areas, I hand my rubbish to a following car or I keep it in my jersey pockets.

I AM A RACE FOLLOWER

- OI turn off my car engine if I'm stopped for more than a minute;
- I encourage car-sharing whenever possible;
- I behave responsibly with regard to the environment by reducing my speed (less pollution, less consumption);
- I use the rubbish bags handed out at the start of the Tour and can get another one if necessary from the Point Info Tri or from a member of the waste management team;
- I also use the recycling bins that are available in all areas (the Tour Village, finish areas, petrol stations, the relais-étape mid-stage stops...). If there aren't any bins available, I keep my rubbish and dispose of it later.

I AM A MEMBER OF THE PUBLICITY CARAVAN

- I sort out packaging (cardboard, plastic wrapping and pallets) and put it in the skips provided for this purpose in the caravan's parking area;
- I adjust the distribution of the products I'm handing out depending on the terrain (crossing watercourses, passing close to cliff edges...) and the number of people on the roadside;
- I encourage the public not to throw packaging on the ground following the distribution of goodies.

If I have any concerns or specific waste requirements (electronic equipment, lights, fridge, etc.), I will contact those responsible for waste management:

THE TOUR DE FRANCE OF BIODIVERSITY

The Tour de France and France Télévisions are collaborating with the National Museum of Natural History.

GREATER AWARENESS MEANS BETTER PROTECTION

The National Museum of Natural History is committed to raising public awareness of the richness of France's natural heritage.

- Thanks to the National Inventory of Natural Heritage (INPN)'s website, anyone can find out about the nature areas, species and geodiversity that can be found in their vicinity.
- In creating the "Tour de France of Biodiversity" series, the museum aims to promote this resource more widely because "greater awareness means better protection".

21 PROGRAMMES FOR THE 21 STAGES

Each day, at the start of the live broadcast on either France 2 or France 3, the Tour de France of Biodiversity will consist of a lighthearted and informative programme, revealing to viewers a protected natural area through which the riders will be racing and within which environmental agencies are working on conserving France's natural

THE NATIONAL MONUMENTS **ON THE RACE ROUTE**

France's leading cultural and tourist network with almost 10 million visitors a year, the Centre for National Monuments (CMN) both maintains nearly 100 exceptional monuments and their parks and gardens, and opens them up to visitors. Thanks to their diversity, they illustrate the richness of France's heritage.

As it travels across the country, the Tour de France allows those following it the chance to discover many historical sites and monuments. Among those that will feature within the backdrop of the 2018 Tour de France are: Georges Clemenceau's house in Saint-Vincent-sur-Jard (Vendée), the spires and historical treasures of Chartres Cathedral (Eure-et-Loir), the Villa Cavrois at Croix (Nord), the château and ramparts of the citadel of Carcassonne (Aude) and the monuments of Paris, notably the Arc de Triomphe, around which the riders will race eight times before crossing the finish line on the Champs-Élysées on Sunday 29 July.

FINISH LINE RESTRICTIONS

Beyond the finish line is a sensitive zone:

- the security of the riders is paramount;
- the work of their team and the media take priority.

If you do not have any reason to be in this zone, you must leave it when you hear an audible signal announcing the last ten kilometres.

Tour de France management and representatives of the Amaury Sport Organisation will be responsible for checking the validity of your presence and could, if necessary, withdraw your accreditation.

The old town

The river Thiou and the many canals that criss-cross the town give it a special charm and a nickname that suits it very well: the little Venice of the Alps. Cobbled alleys from the medieval era, hidden passageways and a tangle of houses are also features of the old

The château and museum

The château is the historic symbol of Annecy. Its construction spanned 400 years, from the 12th to the 16th century. The municipality acquired it in 1953 and, following its restoration, established a museum and the Alpine Lakes Regional Observatory within it.

The museum is currently hosting the Shadokorama exhibition dedicated to Shadoks, an animated TV series broadcast between 1968 and 1973 that gained a cult following.

The Palais de l'Isle

An old fortified house and residence of the Lord of Annecy from the 12th century, the Palais was used as a prison until 1865. Classified as a historic monument in 1900, it now houses the Centre for the Interpretation of Architecture and Heritage. Its roof recently received a significant restoration, which was completed in 2017.

Twelve kilometres long and more than three kilometres wide in places, Lake Annecy occupies the bottom of what was once a glacial gorge and lies 448 metres above sea level. The Bridge of Love, which is officially known as the gateway to the public garden, is a must-see with its breath-taking view over the crystal-clear waters at the foot of the mountains.

Annecy Landscapes Festival

To be seen both during the day and at night, it features 22 artistic and landscape installations in natural and heritage sites within the town. www.annecy.fr
